- > We serve over 40,000 customers and 75% of the Fortune 100™.
- > Real-time support 24 / 7 / 365 available in 8 languages.

Why enhance Lync Online with GlobalMeet Audio for Lync?

Workplaces are changing. Teams are more distributed. Enterprises need productivity tools that enable teams to work from virtually anywhere, get more done in less time and stay connected, no matter where work takes them.

Microsoft Lync Online is a complete unified communication solution that delivers Instant Messaging, Conferencing and Collaboration capabilities through a single, easy-to-use interface that's consistent across PC, browser, and mobile devices. With GlobalMeet Audio for Lync, Microsoft Lync Online enables your enterprise to:

- > Invite external contacts to easily join Lync meetings via a PC or web based client, with PGI audio dial-in details on Microsoft Outlook invitations.
- > Connect through Lync via presence, IM and audio/video conferencing
- > Move easily from instant messaging into ad-hoc online meetings, including audio, video and screen sharing
- > Conduct scheduled online presentations including audio, video, screen sharing and a virtual whiteboard

About us

PGI is a global leader in virtual meetings. For 20 years, we have innovated technologies that help people meet and collaborate in more enjoyable and productive ways.

Every month, our award-winning audio, web and video conferencing products bring over 17 million people together in nearly 4 million meetings, helping many of the smallest and largest businesses around the world be more efficient, mobile and green.
